REVISIONS

SHEET NO.	DATE	REVISED

R/W INDEX

SHEET NO.	DESIGNATION

GENERAL NOTES

XX	All earth shoulders, median areas, and cut and fill slopes shall be plain or mulch seeded except where sodding is specified.
	The final cross sections of the grading contract will be the original cross sections of the paving contract. However, partial or complete cross sections shall be taken if necessary to determine the actual excavation quantities.
	The paper relocation will be cross sectioned by the Engineer before construction.
	Existing asphalt pavement located outside the construction limits, between Sta. ------ and Sta ------, shall be removed as directed.
	The quantity of peat excavation shown on the plans has been estimated on the basis of theoretical cross sections by using treatment of existing fills, treatment by removal, or treatment by displacement, where each treatment applies.
XX	The Project will be constructed in two parts. Project 1 will reconstruct Mt. Tabor Road from Grant Line Road through Klerner Lane. Project 2 will complete the reconstruction of Mt. Tabor Road from East of Klerner Lane to Charlestown Road in a future project.
XX	Removal of existing storm structures will be included in the Clearing Right of Way Pay Item.

M.O.T. SEQUENCE OF OPERATIONS

Phase 1A

1. Install advance warning signs, traffic control devices, temporary traffic barriers and two mobile traffic signals associated with the Phase 1A closure of Mt Tabor Road to provide a single bidirectional lane.
2. Install road closure barricades for both W. Oakwood Drive and E. Oakwood Drive.
3. Construct proposed drilled shaft retaining wall for Slate Run Creek on the northern half of Mt. Tabor Road with allowances for future openings for proposed drainage structures (64, 67, and 69)
4. After completion of the retaining wall, remove traffic control devices, temporary traffic barriers and the two mobile traffic signals, shift temporary traffic barriers to the outside shoulder of westbound Mt Tabor Road and reopen the roadway to two lanes of traffic.

Phase 1B

1. Install detour route marker assemblies, advance warning signs, traffic control devices, temporary traffic barriers and road closure barricades associated with the Phase 1B closure of Mt Tabor Road from approximate station 56+00 to 60+00. Local traffic will be detoured via Rainbow Drive.
2. Construct proposed shotcrete buttress retaining wall for Slate Run Creek on the northern half of Mt. Tabor Road.
3. Remove detour route marker assemblies, advance warning signs, traffic control devices, temporary barrier wall, reinstall guardrail, and road closure barricades and reopen Mt. Tabor Road.

Phase 2

1. Install detour route marker assemblies, advance warning signs, traffic control devices, road closure barricades associated with the Phase 2 closure of Mt Tabor Road and Klerner Lane intersection. Local traffic will be detoured via local streets per the Phase 2 MOT details.
2. Construct temporary driveway access to residences at the beginning and end of Klerner Lane as shown on Phase 2 MOT details.
3. Construct proposed drainage structures and pipes within the road closure for Phase 2.
4. Remove existing temporary stone and install curbing, sidewalk and driveways along the East half of Klerner Lane.
5. Remove existing temporary stone and install curbing, sidewalk and driveways along the West half of Klerner Lane.
6. Construct temporary pavement on the North half of Mt. Tabor from approximately station 11+20 to 15+95 on Line “PR-A” for Phase 3A.
7. Install new traffic signal at Klerner Lane.

Phase 3A

1. Install detour route marker assemblies, advance warning signs, traffic control devices, road closure barricades associated with the Phase 3A closure of Mt Tabor Road to thru traffic between Grant Line Road and Tiger Blvd. Thru traffic will be detoured via University Woods Drive and other local streets.
2. Install traffic control devices and road closure barricades for Phase 3A providing local access on one existing westbound only lane on Mt Tabor Road. Tiger Blvd will be closed during Phase 3A.
3. Construct proposed drainage structures and pipes on the South half of Mt. Tabor Road while maintaining drainage to existing outfalls to the north.
4. Construct new pavement, sidewalk, and curb and gutter on the South half of Mt. Tabor Road.

Phase 3B

1. Maintain Phase 3B closure of Mt Tabor Road to thru traffic between Grant Line Road and Tiger Blvd. Thru traffic will be detoured via University Woods Drive and other local streets.
2. Shift traffic control devices and road closure barricades for Phase 3B providing local access on one existing westbound only lane on Mt Tabor Road. Tiger Blvd will be open during Phase 3B.
3. Shift traffic onto the proposed South half of Mt. Tabor Road.
4. Construct proposed drainage structures and pipes on the North half of Mt. Tabor Road.
5. Construct new pavement, sidewalk, and curb and gutter on the North half of Mt. Tabor Road.
6. Remove traffic control devices and road closure barricades and reopen Mt. Tabor Road.

Phase 4 Preliminary

1. Shift detour route marker assemblies and advance warning signs from Phase 3B to Phase 4 Preliminary locations. Close Mt Tabor Road to thru traffic during daytime only closures for drainage cross structure construction. Use University Woods Drive and other local roads during Phase 4 Preliminary construction. Use flaggers to provide local access as necessary.
2. Install traffic control devices to close Mt Tabor Road from station 17+75 to 31+10.
3. Construct inlets and drainage pipes for 7 crossings including: 18+50, 20+52, 21+17, 25+35, 26+75, 29+00 and 30+34.
4. Construct temporary pavement to be used during Phase 4A.

Phase 4A

1. Change detour route marker assemblies and advance warning signs from Phase 4 Preliminary to Phase 4A closure locations. Use University Woods Drive and other local roads during Phase 4A to detour thru traffic for Mt Tabor Road.
2. Install traffic control devices and road closure barricades for Phase 4A providing local access on one existing westbound only lane on Mt Tabor Road.
3. Construct proposed drainage structures and pipes on the South half of Mt. Tabor Road.
4. Construct new pavement, sidewalk, and curb and gutter on the South half of Mt. Tabor Road.

Phase 4B

1. Maintain detour route marker assemblies and advance warning signs for Phase 4B. Use University Woods Drive and other local roads during Phase 4B to detour thru traffic for Mt Tabor Road.
2. Install traffic control devices and road closure barricades for Phase 4B providing local access on one existing westbound only lane on Mt Tabor Road.
3. Shift traffic onto the proposed South half of Mt. Tabor Road.
4. Construct proposed drainage structures and pipes on the North half of Mt. Tabor Road.
5. Construct new pavement, sidewalk, and curb and gutter on the North half of Mt. Tabor Road.
6. Remove traffic control devices, temporary barrier wall, and road closure barricades and open Mt. Tabor Road.
7. HMA surface and final pavement markings are to be constructed and installed under normal traffic conditions.

Notes:

Access to all properties shall be maintained at all times. Half at a time construction shall be used as necessary. Temporary stone ramps for driveways may be necessary.

Standard barrel spacing shall be 20 ft on a taper section and 40 ft on a tangent section.

DETAIL 'A'

LEGEND: Existing Equipment

- Existing Signal Strain Pole, Steel (Remove)
- (90) Existing Span, Catenary and Tether (Remove)
- Existing Traffic Signal Head, 1 Way, 1 Section, 12 in. Red (Remove)

LEGEND: Proposed Equipment

- (#) Loop Detector Delay Amplifier, 2 Channel 6 ft. Octagonal Loop, 4 Turns in Series
- Conduit, Steel, Galvanized, 2 in.
- Handhole Signal Type 1
- Pedestrian Signal Head, Countdown, 18 in. and Pedestrian Push Button
- Signal Strain Pole Steel 30 Ft and Signal Pole Foundation, 36 in. X 144 in. With Pedestrian Push Button Assembly, APS with R10-3c Signs
- Traffic Signal Head, 3 Section, 12 in.
- Controller and Cabinet P1 on Controller Cabinet Foundation, P1
- (91) Span, Catenary, and Tether
- Disconnect Hanger
- Sign, Sheet

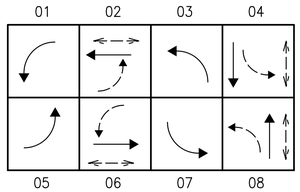

NOTE: STRIPING FOR INFORMATION ONLY.
SEE PAVEMENT MARKING DETAILS.
SEE PAVEMENT MARKING DETAILS FOR ADDITIONAL SIGNING.
